

Solving environmental problems by nurturing the development of environmental businesses

# Osaka ATC Green Eco Plaza

## Features

- Some 130 companies are participating in this permanent environmental exhibition venue, which offers 4,500 square meters of space.
- The plaza holds seminars and other events to promote environmental business.
- In addition to receiving Eco Action 21 certification, the facility has introduced an environmental management system.

## Overview

(Technical principles, actions, etc.)

Osaka ATC Green Eco Plaza is Japan's first support base for environmental businesses where environmental technologies and products are gathered in one place to transmit new information.

The facility is divided into a number of theme-based zones including the Environmental and CSR Management Zone; the Industry and Academia Partnership Business Zone; the Recycle-oriented Society Development Zone; the Eco-business Support Zone; the Overseas Eco-business Zone; the Eco-mark Zone; the Environmental and CSR Report Zone; the Diet and Environment Zone and the Event and Exhibit Zone.

In addition to exhibits of many products and projects related to environmental businesses, the plaza offers various seminars and other timely events addressing the intense changes facing society.

Diet and Environmental Business Zone

## Track Record and Effects

- In addition to the permanent exhibits, Osaka ATC Green Eco Plaza offers various seminars that provide the latest information on the environment, as well as events that aim at business-matching, teaching and the promulgation of knowledge on environmental problems. Many people involved in business, government agencies and citizen's organizations participate in these seminars and events. Study sessions concerning various specialties are held by exhibitors and others in the plaza and many people use them as opportunities for exchanging information, conducting joint research and interacting.
